Job Summary:

A Survey & Inspection Asset Lead is regarded as someone who is fully conversant in all survey and inspection equipment dispatching, sourcing, and supporting related project tasks.

The Survey & Inspection Lead is the link between the Survey Manager and offshore Survey and Inspection operations ensuring the smooth dispatch and receiving of offshore S&I equipment.

The Survey & Inspection Lead is expected to ensure that project readiness is achieved by means of equipment support and provide further assistance in the event of equipment failure or project specific hired in equipment and resupply.

Entry Level Specifications:

- Education
 - Electronics or Electrical or Hydrographic Survey or Geomatics degree or similar education (Experience can compensate for lack of formally proven competence).
- Experience/ Knowledge:
 - 5 years of survey or Inspection engineer experience
 - Or
 - Relevant industrial, military, or academic experience
 - (Training program can compensate for lack of experience).

Competencies:

- 1) The ability to operate the company safety management system and ensure effective implementation in the workplace
- 2) The ability to manage and oversee the use of Inspection Software Suites
- 3) The ability to coordinate and ensure Survey/Inspection equipment readiness for deployment to worksite
- 4) The ability to ensure effective management data throughout the project
- 5) The ability to provide supervision and leadership of Inspection Teams
- 6) The ability to supervise all aspects of the Survey & Inspection during operations
